# ABOUT US

At Culinox Company LLC we are a trusted name in commercial stainless steel kitchen equipment manufacturing and industrial steel fabrication. With years of experience and a passion for engineering excellence, we specialize in delivering custom-designed, durable, and high-performance fabrication solutions for commercial, industrial sectors.

Our expertise covers the full spectrum of fabrication services — from concept design and precision engineering to on-site installation and maintenance. Whether it's a fully equipped stainless steel kitchen for hotels, restaurants, or catering facilities, or large-scale industrial fabrication projects, we are committed to providing products that meet the highest standards of quality, safety, and functionality.

We combine modern technology, skilled craftsmanship, and quality materials to ensure every project is executed with precision and reliability. Our in-house team of designers, fabricators, and technicians work closely with clients to develop tailor-made solutions that meet their operational needs and budget requirements.

At the core of our operations lies our dedication to innovation, quality, and customer satisfaction. Over the years, we have built long-term relationships with clients across commercial, hospitality, and industrial sectors

# VISION-MISSION-VALUES

## Vision

To be a leading and trusted manufacturer and fabricator of high-quality stainless steel and industrial fabrication solutions, setting the benchmark for innovation, precision, and reliability in every product we deliver.

## Mission

To design, manufacture, and deliver durable, efficient, and customized stainless steel kitchen and industrial fabrication products that meet international quality standards. To continually innovate in fabrication technology, processes, and design to enhance performance, safety, and sustainability.

## Core Values

- Quality Excellence
- Innovation
- Customer Focus
- Integrity & Reliability
- Teamwork
- Safety & Sustainability

# QUALITY POLICY

At Culinox Company LLC we are committed to delivering high-quality stainless steel kitchen equipment and industrial fabrication solutions that meet and exceed customer expectations, while ensuring a safe and healthy working environment for all employees, contractors, and stakeholders.

## Quality Policy

We strive for excellence in every stage of our operations — from design and fabrication to installation and service.

### Our quality objectives are to:

- Manufacture and supply products that comply with relevant international standards, client specifications, and regulatory requirements.
- Continuously improve our processes through systematic monitoring, internal audits, and employee feedback.
- Maintain consistency in product performance, durability, and aesthetic finish through strict material selection and quality control procedures.
- Invest in advanced technology, skilled manpower, and training to enhance productivity and precision.
- Foster a culture of innovation, accountability, and continuous improvement in every department.
- Deliver on time, every time, ensuring customer satisfaction and long-term business relationships.

# SAFETY POLICY

Safety is an integral part of our operational excellence. We are dedicated to preventing workplace accidents, injuries, and illnesses through proactive risk management and compliance with safety standards.

Our safety commitments include:

- Providing a safe and healthy work environment for all employees and visitors.
- Conducting regular hazard identification, risk assessment, and mitigation measures at all stages of work.
- Ensuring all personnel are trained and competent in safe work practices and emergency procedures.
- Maintaining all machinery, tools, and equipment in safe working condition through routine inspections and preventive maintenance.
- Enforcing the use of appropriate personal protective equipment (PPE) and adherence to safety protocols at all times.
- Promoting a safety-first culture where every employee takes responsibility for their own safety and that of their colleagues.

# SERVICES

## ■ **Stainless Steel Kitchen Equipment Manufacturing:**

Custom design and fabrication of kitchen equipment for restaurants, hotels, catering units, and food production facilities.

## ■ **Industrial Steel & Structural Fabrication:**

Structural and non-structural steel fabrication, including tanks, platforms, frames, ducts, and enclosures.

## ■ **Custom Industrial Fabrication Services**

Specialized metal fabrication, repair, and maintenance services for industrial and commercial applications.

## ■ **Repair, Modification, and Maintenance Services**

Expert repair, modification, and maintenance services for all types of chillers, cold rooms, industrial kitchen refrigeration units, and freezer rooms

## ■ **Installation & Erection**

Installation and erection of industrial and commercial steel structures, equipment, and systems with precision and safety
